## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities:

On page 3, the reference to “claim 1” should be removed.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5, and 12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Cadeddu (5,167,305). Cadeddu discloses a motor vehicle with a face wall frame having a first wall 26 and a second wall 12 at a spacing from the first wall 26, wherein the first wall 26 has a recess 28 to accommodate a brake booster 10 which is screwed solely to the first wall 26, wherein the first wall 26 and the second wall 12 are formed of metal. The structural relationship “at a spacing from the first wall” has been broadly interpreted as space where the two walls are not in contact.

### ***Allowable Subject Matter***

Claims 2-4 and 6-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3745

***Prior Art***

Prior art made of record but not relied upon is considered pertinent to Applicant's disclosure and consists of four patents.

Dolla, Last et al., Kami et al., and Seip are cited to show face walls with brake boosters.
